LED DIMMER CONTROLLER MODULE

CT-110 LED Dimmer Controller

The CT-110 LED Dimmer Controller can be used to drive FlexLED SMT in conjunction with a suitable 12v dc power supply. The CT-110 LED Dimmer Controller will drive up to 15m of FlexLED SMT per channel.

Specifications

Voltage	12 V dc
Connections	Screw Terminal
Ambient Temperature	-20 to +50 Degrees Centigrade
Output	2 x 10 Amp
Control Interface	4 Button unit
Mounting	Surface
Dimensions	211mm x 40mm x 30mm
