### ColourSlave

#### High Power RGB LED Repeater

The ColourSlave RGB repeaters are used in conjunction with the ColourMaster Controller to drive either PowerStrip V series products, FlexLed SMT RGB strip or ColourStrip products in conjunction with a suitable 12 or 24v dc power supply. The addition of each ColourSlave with a power supply will add the same drive capacity as the original ColourMaster and will run in synchronisation controlled from the ColourMaster.

#### Specifications

Power requirements	12/24V dc
Output Power	3 x 10A
Mounting	Wall
Ambient Temperature	-20 to +85 Degrees Centigrade
Humidity	95% Non condensing
Dimensions	164mm x 100mm x 34mm
